

## Maths-Whizz: Raising Standards in Maths

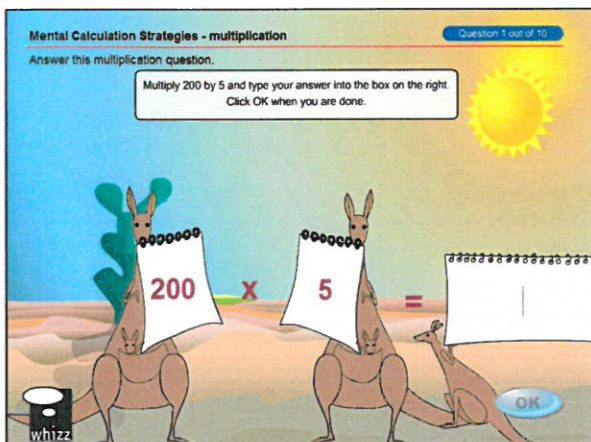

Dear Parent,

Our school maths provision includes subscription to the award-winning Maths-Whizz. Your child will have access to Maths-Whizz at home as well as at school, making sure they get all the assistance available in increasing their knowledge and attainment. Using Maths-Whizz for just 20-30 minutes, two to three times a week can make a big difference to your child's results.

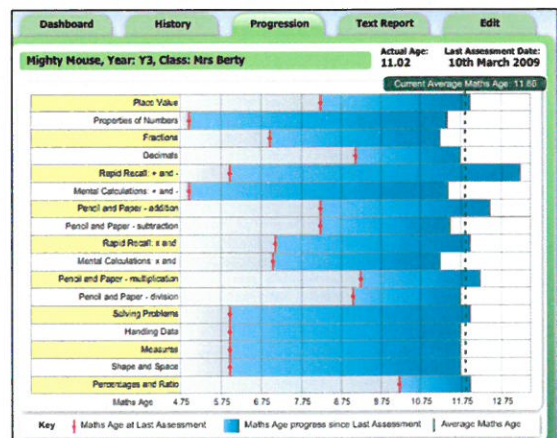

### What is Maths-Whizz?

Every child deserves a learning experience that caters to their individual needs. Maths-Whizz helps to provide that. To begin, your child will be assessed in key topics in order to work out their strengths and weaknesses across the curriculum. The Maths-Whizz Virtual Tutor will then guide them through a fun, interactive online world of learning, constantly adapting the journey to meet your child's unique needs and pace of learning.

***It is important that you don't help your child with their answers in lessons and assessments. The Tutor works to teach and to build confidence by supporting your child directly at their individual level of ability.***

Fun and exciting ways to learn

Progression chart in your reports

***Our research shows that children who spend 45-60 minutes a week on Maths-Whizz increase their Maths Age by an average of between 1.3 and 1.6 years in just 1 year of use.***

As a parent you can register to receive free update emails giving an overview of your child's progress within Maths-Whizz. Alternatively, you can access more detailed live reports like the one shown above, allowing you to monitor your child's usage and progression in depth. To access the free emails and/or the detailed live reports, simply follow the steps below:

- Go to [www.whizz.com](http://www.whizz.com) and log into your child's Maths-Whizz account
- Go to 'Console'
- Click the orange 'Parents' button in the bottom right corner, and follow the instructions on the screen to register for free monthly progress emails

Any questions? Contact Whizz Education on 0203 328 6564, or email [customer.success@whizz.com](mailto:customer.success@whizz.com).

### ***Maths-Whizz on an iPad or tablet: Puffin Academy***

You can access Maths-Whizz on iPads and tablets\* through Puffin Academy, the **free** Flash mobile browser that provides access to whitelisted online educational resources.

1) Download the free Puffin Academy app: for Android tablets, use the Google Play store; for iPads, use the iTunes Store.

2) Once you have downloaded the app, go to this link within any browser on your tablet or iPad: <puffin://www.whizz.com>.

3) You will arrive on the Maths-Whizz website within the Puffin Academy app. Log in to your account as usual and enjoy Maths-Whizz on the go!

\*To have the best experience on Maths-Whizz, Whizz Education recommends your child accesses their virtual tutor from a computer/laptop.
