## Gritting Plan 2017-2018

The shaded areas of the plan will be gritted and cleared of ice and snow in cases of extreme weather. Please keep to these areas when on the school grounds. Please follow the arrows to enter the school in icy weather.

If the temperature drops below zero or if the playground area is deemed unsafe then the children will not go outside at playtime.

If you are in any doubt whether school is open, please check your phone for a School Comms update from school, check the front page of the school website and listen out on Radio Stoke. In the extreme circumstance that school is closed, we will contact you.
